Belgrade, RS

OBJECTIVE

Results-driven Frontend Developer. Specialized in React. Seeking to leverage expertise in full-stack development, automation, and web technologies within a dynamic organization. Will find a solution.

EXPERIENCE

Frontend Developer

Gitarologia

01/2023 - Present Belgrade, RS

- Developed and optimized highly interactive and responsive web applications using React and NextJS for e-learning related platforms.
- Integrated external APIs to display dynamic social media statistics and improve user engagement.
- Implemented advanced routing techniques in Next.js to handle static routing and lesson prerequisite unlocking for an e-learning platform.
- Built and maintained reusable components and UI features, improving the user experience and visual consistency across the application.
- Collaborated with backend teams to manage PostgreSQL databases, developing admin interfaces for event management.
- Migrated complex components such as video players to Material-UI (MUI) 5, improving performance and UI flexibility.

Frontend Developer

Freelance

06/2022 - 01/2023 Remote

- Designed and developed responsive, user-friendly websites using React, HTML, CSS, and JavaScript for a variety of clients across different industries.
- Collaborated with clients to gather requirements and deliver tailored web solutions, ensuring high customer satisfaction and timely project delivery.
- Optimized websites for performance and SEO, leading to faster load times and improved search engine rankings.
- Integrated third-party APIs and tools to enhance functionality, such as implementing payment gateways, social media sharing, and location services.
- Provided ongoing maintenance and updates, ensuring that websites remain secure, up-to-date, and compatible with the latest web standards.

Computer Technician

NETcom D.O.O.

09/2018 - 05/2022 Kovin, RS

- Diagnosed and repaired a wide range of hardware issues on PCs and laptops, including component replacements and hardware upgrades.
- Performed software troubleshooting, virus removal, and operating system installations, ensuring optimal performance and security of client devices.
- Conducted routine maintenance and system optimizations to extend the lifespan of devices, improving overall user experience and system stability.
- Provided technical support and guidance to clients, resolving hardware and software issues both in-person and remotely, with a strong focus on customer service.

EDUCATION

Jazz and Contemporary Music

Anton Bruckner Privatuniversität

09/2010 - 09/2014 Linz, AT

High School

Gimnazija Branko Radičević

09/2000 - 09/2004 Kovin, RS

PROJECTS

E-Learning Platform - NextJS

Contributed to the design and implementation of features for a proprietary e-learning platform aimed at providing high-quality education to users.

<https://bit.ly/4eQrkuK>

Anitrone: Custom Frame Export System - Python

Implemented a custom frame export system in Anitrone, allowing users to batch export frames as both static and animated formats.

<https://github.com/vpopovic003/anitrone-python>

Event Editor for PostgreSQL Database - NextJS

Built an event editor tool within an admin panel, allowing users to edit, add, and delete event entries in PostgreSQL database.
